BARNSTAPLE PARISH REGISTER

OF

BAPTISMS MARRIAGES AND BURIALS

1538 A.D. TO 1812 A.D.

EDITED BY

THOS. WAINWRIGHT.

PREFACE.

This publication is not a verbatim and literatim copy of the Barnstaple Parish Register, for while all the facts contained therein are given, some of the mere verbiage is omitted, such as the words "was baptized" and "were married," and instead of printing the following and similar additions to names, "Of the Duke of York's Fencibles," "Buried in Woollen," "Died of the Plague," in every instance where they appear, a letter is placed instead of these additions with a note explanatory of the signification of the letter at the foot of the page.

Before the adoption in England of the new style, on January 1st, 1752, the 25th of March is, in most instances, regarded as the first day of the year, but it will be observed that in some years January 1st is reckoned as New Year's Day.

Among the Marriages, I have recorded thirty which are not now found in the Parish Register, namely: those on and between July 25th, 1716, and May 9th, 1717. When I copied this portion of the Register, in the year 1887, the leaf containing those entries was in its place in the volume, but it has since been removed, the parchment having been carefully cut. I shall be glad if this notification furnishes a clue to the perpetrator of the mutilation and robbery.

For the publication of this work, the thanks of those to whom it is of value are due to the Venerable Archdeacon Seymour, who, when Vicar of Barnstaple, permitted the editor to make the copy; to Rev. Dr. Newton, the present Vicar, who gave his consent to the publication of the same; and to the Directors of the North Devon Athenæum, who undertook the heavy financial responsibility of the cost of printing; thus, acting in accordance with the known wishes of Barnstaple's great benefactor, Mr. W. F. Rock, to whom nothing could be more pleasing than that out of the funds derived from his munificent endowment of the Athenæum, a contribution should be made towards the production of a work containing information concerning the families of his native town.

THOS. WAINWRIGHT.

The first day of July, 1644, this towne was most wonderfully preserved from the Irish and French which came against them for to destroy this towne, which is a day to be remembered of us of this towne for ever.
John Sloy, Clarke.

[Roger filius Johannis Peard,

Monument in Barnstable Church—

T.W.] ... obit 29 Oct.

[No explanation is given why the mark * is placed after 35 names between July 20th, 1641, and 5th April, 1643, but it is probable that the persons whose names are thus marked died of the plague which then prevailed, as the following entries show.—T.W.]
